Health Care Assistant

Certificate available

The Health Care Assistant certificate program provides a solid foundation in the fundamental principles for diploma-level Health Science programs at NGTC including Practical Nursing, Medical Assisting, Pharmacy Technology and more. Program graduates are trained in the underlying fundamentals of health care delivery and are well prepared for employment and subsequent upward mobility. Classes provide hands-on instruction in vital signs, wound care, venipuncture and trauma assessment. Health Care Assistant students also receive BLS and First Aid certification and may find employment in places such as hospitals, medical laboratories, and home health care facilities.

Available on all three campuses

Students who enroll in the Health Care Assistant program may select one of the following specializations:

- Patient Care
- Phlebotomy

Students who complete the Health Care Assistant certificate and choose to specialize in Patient Care are eligible to sit for the state certification exam to become a Certified Nursing Assistant (CNA).
