Advanced Emergency Medical Technician Certificate (EMH1)

Offered at the Clarksdale, Blairsville, and Currahee Campuses

Entrance Dates: Vary According to Campus
Length of Program: 1 Term
Credit Hours Required for Graduation: 10

Purpose: The Advanced Emergency Medical Technician certificate program prepares students to provide basic and limited advanced emergency medical care and transportation for critical and emergent patients who access the emergency medical system. This individual possesses the basic knowledge and skills necessary to provide patient care and transportation. Advanced Emergency Medical Technicians function as part of a comprehensive EMS response, under medical oversight. Advanced Emergency Medical Technicians perform interventions with the basic and advanced equipment typically found on an ambulance. The Advanced Emergency Medical Technician is a link from the scene to the emergency health care system. Successful completion of the program allows the graduate to take the National Registry of Emergency Medical Technicians AEMT certification examination and apply for Georgia licensure as an AEMT.

Admission Requirements:
- Age 18 or older
- High school diploma or GED
- Completion of application process including placement test; or provide SAT or ACT scores less than five years old
- Current certification and/or license as an EMT or EMT-Basic (with successful completion of Georgia State Office of Emergency Medical Services and Trauma EMT-B to AEMT update course); or successful completion of the Emergency Medical Technician technical certificate of credit

Program Requirements:
- All learning support courses must be completed prior to enrolling in EMSP 1510
- Must meet the technical competencies (listed below) of the program prior to entry
- Must carry professional liability insurance while enrolled in the program
- A negative (acceptable) criminal background check and drug test are required prior to enrolling in any of the EMSP courses; participation in this program is dependent upon the results of these requirements
- Required to complete a dental and physical examination and document up-to-date immunizations before placement in a clinical training site
- A grade of “C” or better must be achieved in each course for graduation
- No re-admission to the program after two withdrawals or two academic failures in any occupational course

Additional Information:
- Students will be required to demonstrate competency during program exit testing. Students failing to meet established standards will not be able to graduate or take licensure exams. An established performance and remediation policy will be distributed during the final EMSP course.
- An individual applying to a certifying agency that has a misdemeanor or felony must explain and document each occurrence at the time of application. State agencies regulate licensure, which can be denied.

Estimated cost of books and supplies for full program is approximately $375. Price does not include the cost of required clinical shoes and uniforms which is approximately $150. Other costs include: certification exam - $250-$300, drug test - $35, criminal background check - $50, Georgia licensing fees - $100, Platinum Planner - $60, EMS Testing - $50, and malpractice insurance - $46.50. These are approximate costs and subject to change.
Technical Competencies:

Working Environment – Emergency medicine contains many potential risks. They may include cuts or infections from sharp instruments, contaminated equipment, or personnel; possible exposure to communicable diseases; and possible strains due to handling heavy equipment and patients.

OSHA Risk Factor – Category I – A chance of exposure to blood and other body fluids is high and is an integral component of the clinical experience. The student may be exposed to latex; noxious smells, either toxic or non-toxic; and toxic gases or liquids, any of which could possibly cause general or localized disabling conditions as a result of inhalation, ingestion, or action on the skin. HBV vaccination is recommended prior to clinical rotation.

Physical Demands – This position involves primarily medium work which requires frequent lifting, carrying, pushing and pulling of objects or equipment. Individuals enrolled in the program will need the physical ability to assist in lifting and carrying objects, such as patients or laboratory equipment, regardless of the weight of the patient or equipment. The ability to stoop, kneel, and reach; and exhibit general manual dexterity is required. The ability to express and exchange ideas by spoken word is required. The ability to see and obtain impressions through the eyes of shape, size, distance, color, motions, or other characteristics of objects is required. This requires a visual acuity of 20/20 vision, with clarity of vision of 20 inches or less, depth perception, four-way field vision, sharp eye focus, and ability to identify and distinguish color. The abilities to hear and smell are essential. This position requires frequent sitting, standing, and/or walking. The ability to work under frequent mental and physical stress is required. The ability to think critically is essential. Reliable transportation to the clinical site is essential.
