

# Agriculture

Diploma or Associate Degree available

NGTC's Agriculture program develops student leaders in Agribusiness and Modern Agriculture to supply the food, fiber and fuel our world needs to survive and thrive. The Agribusiness curriculum allows individuals to gain an appreciation for management and technology concepts related to the agricultural industry. The curriculum also develops students' knowledge and skills related to economics, production and marketing. The Modern Agriculture program allows students to develop an appreciation for the reliance on natural resources as well as knowledge and skills in the basics of animal science, innovative technology, government involvement in food and agriculture, and the global impacts of food and agriculture.

 Available on the Clarkesville campus

## Available Programs:

- Agribusiness Degree or Diploma
- Modern Agriculture Degree or Diploma

NGTC's Agriculture program offers a variety of classroom and hands-on experiences aimed at preparing the next generation of agriculturalists to enter the industry. Our dedicated production space, outdoor lab acreage and state-of-the-art facilities and equipment rival what larger colleges have to offer.
