Practical Nursing

Certificate available

Do you have a passion for helping people? Looking to turn that passion into a fast-paced, high-paying career? Look no further. The NGTC Practical Nursing program is designed to expose students to a variety of academic and occupational courses providing training in different techniques and materials. Clinical experiences are planned so theory and practice can be integrated under the guidance of an instructor. Graduates must pass the NCLEX-PN state board exam in order to work as a licensed practical nurse (LPN) in Georgia.

This department has programs that are eligible for 100% tuition coverage under the HOPE Career Grant.

Available on the Blairsville and Currahee campuses

Completion of the program prepares students for a variety of positions in:

- Hospitals or physician's offices
- Long-term care facilities
- Rehabilitation centers
- Home health care
- School nursing offices and more!

The Practical Nursing program courses will be offered during the day. However, clinical rotations may be scheduled in the evening and possibly on weekends.
