

# Precision Machining

Certificate, Diploma or Associate Degree available

NGTC's Precision Machining and Manufacturing Technology program teaches the technical and professional skills necessary to program and operate advanced machining equipment. Beginning students learn hand-operation techniques before advancing to the use of design software CNC machines. Precision Machining graduates are in high demand, as are graduates from related advanced programs such as Tool and Die Specialist or Applied Technical Management. They may work in a variety of areas including machine shops, toolrooms or manufacturing facilities.

 This department has programs that are eligible for 100% tuition coverage under the HOPE Career Grant.

 Available on the Clarkesville campus

The Precision Machining program emphasizes hands-on training in CNC mill manual and lathe manual programming, lathe operations, CAD/CAM programming and print reading for machine tool.

#### Available Programs:

- Applied Technical Management Degree
- Precision Machining (CNC) Diploma
- CNC Specialist Certificate
- Lathe Operator Certificate
- Mill Operator Certificate
- Tool and Die Specialist Certificate
