

General Education

Certificate or Associate Degree available

North Georgia Technical College offers core classes in English, math, humanities, science, psychology and speech, which are required for most degree programs. The General Studies program provides students with the option to combine general education along with occupational courses to create a specialized degree suited to their individual career goals. This institutionally-developed program was uniquely designed to align with USG institutions to provide graduates a seamless plan of study from the AS to a baccalaureate program of choice with minimal loss of credits.

Extra benefits include HOPE Career Grant eligibility and measurable progress toward a future degree

 Available on all three campuses

Graduates of NGTC's General Studies program develop academic and professional knowledge and skills necessary to succeed in the profession of their choice or to further their education at a four-year university.

Available Programs:

- Associate of Science in General Studies
- Associate of Science in Interdisciplinary Studies
- Early College Essentials Certificate
- Technical Specialist Certificate
