

Networking Specialist

Certificate, Diploma or Associate Degree available

Organizations depend on Networking Specialists to configure, troubleshoot, and maintain their computer systems and networks. Learn in-demand skills and obtain world recognized industry certifications while studying toward your Networking Specialist degree. NGTC's Computer Information Systems - Networking Specialist program is a sequence of courses designed to provide students with an understanding of the concepts, principles, and techniques required in computer information processing. Program graduates are qualified for employment as networking specialists.

 This department has programs that are eligible for 100% tuition coverage under the HOPE Career Grant.

 Available on the Clarkesville campus
