

FREQUENTLY ASKED QUESTIONS

What should students and chaperones bring?

Everyone is encouraged to bring a reusable water bottle. There will be opportunities to refill those during the tours. Depending on the weather, you may also want to bring an umbrella or rain jacket.

What should students and chaperones wear?

Everyone is encouraged to dress appropriately based on the weather and according to your school's policies. However, we recommend tennis shoes or other comfortable shoes as the tours involve walking around campus.

Which color groups involve the most walking?

Building & Fixing Things (Blue), Everything Outdoors (Green) and Hands-On Tech (Orange) involve the most walking. However, you will stop for tours in between, so it is not continuous.

What if I am unable to walk/need assistance with touring campus?

If you or a student in your group is unable to walk and/or needs assistance with touring campus, please notify Katie Johnson (katherine.johnson@northgatech.edu) prior to your tour date. We are happy to make arrangements as needed.

What if my school arrives early for our tour?

Depending on how early your school arrives, we may ask you to remain on the bus for a few minutes as we do have other schools moving in and out of common areas. Once you have entered the building, we will provide time for restroom and/or water breaks and will fill the time accordingly. In an effort to respect our students and faculty, we will not begin tours prior to your scheduled start time.

What if my school arrives late for our tour?

If your school arrives a few minutes late, we will cut introductions and hype time/games short. However, any significant delays in arrival will result in shortened or lost tour time as we must be respectful of our faculty and students.

Will NGTC provide lunch?

Lunch will not be provided by NGTC. However, if your school would like to bring lunches and use our facilities, that can be arranged. Please reach out to Katie Johnson to coordinate this.
